## Great Wagyu Adventure

An outback jet | A boundless sky | A continent at your fingertips

Words in a brochure can explain the facts, but they can't explain the feeling – the life-enriching sense of adventure that comes from flying over an enormous country in a private aircraft.

The only way to understand that is to hop on board the Outback Jet and feel it for yourself!

*I can't believe how much we got to see and experience in just one day. And the personalised bottle of wine was such a fun thing to do and share with my friends when I returned.*

## A life enriching experience

Long drives, rigid itineraries or hours transiting between destinations. Is that really the best way to discover a continent as vast and alluring as Australia?

The rare travellers who delve beyond this country's surface begin to discover something special. It might start with a colourful tale they overhear in an outback pub – or the trade secrets learnt from one of the world's most elite full blood Wagyu breeding operations. Sometimes it's the local legends they encounter, and sometimes, a glimpse of the scorched riverbed from high above is what does it.

Whatever the cause, the result is the same: a meaningful connection to this land, formed by moments that can't quite be put into words.

With experienced guides – and a sturdy pair of wings – you can travel higher, faster, and further than most people ever get the chance to do.

You can discover the *real* Australia.
